Re *Ex Parte* Presentations – *Appropriate Framework for Broadband Access to the Internet Over Wireline Facilities* --CC Docket Nos 02-33, 98-10, 95-20, *Review of Regulatory Requirements for Incumbent LEC Broadband Telecommunications Services*--CC Docket No 01-337

Dear Ms Dortch

On October 2, 2003, Mark O'Connor of this firm and the undersigned, on behalf of EarthLink, met with Matthew Brill, Senior Legal Advisor to Commissioner Abernathy, to discuss the above-referenced proceedings

During these meetings, EarthLink discussed its position described in documents previously filed in the above-referenced dockets, with emphasis on Bell Company pricing of wholesale ADSL service. EarthLink explained its view that Bell Companies price such service unreasonably above cost, estimating that the Bells incur only approximately \$14.00 in costs (including normal profit and joint and common costs) per month to provide a single ADSL arrangement. EarthLink also discussed its position that the Bell Companies price their retail broadband Internet access service below cost, resulting in an illegal cross-subsidy and illegal price squeeze. During the meeting, EarthLink referred to and displayed the attached

document, which is a page from Verizon's Infospeed cost justification materials filed on April 14, 2003 as part of Verizon Transmittal No 311

Pursuant to the Commission's Rules, eight copies of this letter/memorandum are being provided to you for inclusion in the public record in each of the above-captioned proceedings. Should you have any questions, please contact me.

Sincerely,

  
Kenneth R. Boley  
Counsel for EarthLink, Inc.
